Like the Internet before it, robotics is a socially and economically transformative technology. Robot Law explores how the

increasing sophistication of robots and their widespread deployment into hospitals, public spaces, and battlefields requires rethinking of a wide variety of philosophical and public policy issues, including how this technology interacts with existing legal regimes, and thus may inspire changes in policy and in law. This volume collects the efforts of a diverse group of scholars who each, in their own way, has worked to overcome barriers in order to facilitate necessary and timely discussions of a technology in its infancy. Identifying controversial legal, ethical, and philosophical problems, the authors reveal how issues surrounding robotics and regulation are more complicated than engineers could have anticipated, and just how much definitional and applied work remains to be done. This groundbreaking examination of a brand-new reality will be of interest and of use to a variety of groups as the authors include engineers, ethicists, lawyers, roboticists, philosophers, and serving military.

Completely reworked and updated, the third edition of *Business Reorganizations* is uniquely designed to make learning the Chapter 11 process an engaging, challenging and fun experience. The book is organized into ten chapters, each concentrating on a different phase of the attempt to rescue the fictional, financially beleaguered Amphydynamics Corporation and its related companies. This storyline runs the length of the book, and gradually unfolds in many problems and notes within each chapter. The problems direct reading of the opinions and other materials by placing issues in context. They help students to understand the commercial transactions and business environment that form the backdrop against which the Chapter 11 drama is played out. They introduce an ensemble of characters possessing conflicting and shifting loyalties, interests, and attitudes, and who reveal the human dimension of the Chapter 11 process. The problems also focus attention, heighten interest, and bare some ethical dilemmas by inviting students to role-play -- to think like clients as well as lawyers -- and to negotiate, advise, and strategize. *Business Reorganizations* provides professors with the flexibility to pick and choose materials they feel deserve emphasis in their individual courses. Purposely comprehensive and encyclopedic, this book is designed

both as a tool for law school and as a resource for practice. Extensive textual notes following the cases provide the reader additional explanation and expansion of the themes expressed in the cases, are comprehensive enough to serve as mini-treatise; so giving the book an extended shelf life. A sample disclosure statement, plan of reorganization, and ballot, may be downloaded for class use. The eBook version of this title features links to Lexis Advance for further legal research options.

A favorite classroom prep tool of successful students that is often recommended by professors, the Examples & Explanations (E&E) series provides an alternative perspective to help you understand your casebook and in-class lectures. Each E&E offers hypothetical questions complemented by detailed explanations that allow you to test your knowledge of the topics in your courses and compare your own analysis. Here's why you need an E&E to help you study throughout the semester: Clear explanations of each class topic, in a conversational, funny style. Features hypotheticals similar to those presented in class, with corresponding analysis so you can use them during the semester to test your understanding, and again at exam time to help you review. It offers coverage that works with ALL the major casebooks, and suits any class on a given topic. The Examples & Explanations series has been ranked the most popular study aid among law students because it is equally as helpful from the first day of class through the final exam.

Fifteen in a series of annual reports comparing business regulation in 190 economies, Doing Business 2018 measures aspects of regulation affecting 10 areas of everyday business activity: • Starting a business • Dealing with construction permits • Getting electricity • Registering property • Getting credit • Protecting minority investors • Paying taxes • Trading across borders • Enforcing contracts • Resolving insolvency These areas are included in the distance to frontier score and ease of doing business ranking. Doing Business also measures features of labor market regulation, which is not included in these two measures. The report updates all indicators as of June 1, 2017, ranks economies on their overall “ease of doing business”, and analyzes reforms to business regulation † identifying which economies are strengthening their business environment the most. Doing Business illustrates how reforms in business

regulations are being used to analyze economic outcomes for domestic entrepreneurs and for the wider economy. It is a flagship product produced in partnership by the World Bank Group that garners worldwide attention on regulatory barriers to entrepreneurship. More than 137 economies have used the Doing Business indicators to shape reform agendas and monitor improvements on the ground. In addition, the Doing Business data has generated over 2,182 articles in peer-reviewed academic journals since its inception. Data Notes; Distance to Frontier and Ease of Doing Business Ranking; and Summaries of Doing Business Reforms in 2016/17 can be downloaded separately from the Doing Business website.

This Intro to Economics PLP contains materials for use with Bankruptcy of Our Nation and Money Wise DVD. Materials are organized by each book in the following sections: . Study Guide Worksheets . Quizzes . Semester Tests & Final Exam . Answer Key Features: Each suggested weekly schedule has four easy-to-manage lessons that combine reading, worksheets, and vocabulary-building opportunities. Worksheets, quizzes, and tests are perforated and three-hole punched materials are easy to tear out, hand out, grade, and store. Adjust the schedule and materials needed to best work within your educational program. Space is given for assignments dates. There is flexibility in scheduling. Adapt the days to your school schedule. Workflow: Students will read the pages in their book and then complete

each section of the PLP. They should be encouraged to complete as many of the activities and projects as possible as well. Tests are given at regular intervals with space to record each grade. If used with younger students, they may be given the option of only choosing activities or projects of interest to them and taking open book tests. Calculating Credits: This course should take between 60 to 90 hours to complete, depending on any additional hours spent on added research, essay writing assignments, or suggested lab work, if assigned. Elective courses that take 60 hours are commonly assigned 1/2 credit, while those 120 hours or more are assigned a full credit; core courses require over 150 hours for a credit. Based on whether this is being used as a core or elective course, make your final credits calculation based on the total hours of coursework completed in the year."
