Project brings English to life through motivating topics within a structured learning environment. It provides a clearly-structured, supportive framework of grammar with the flexibility to allow students to make their own discoveries. Language is presented in stimulating, realistic contexts. A high profile is given to skills development from the start of the course. Cross-curricular project work encourages students to communicate in English about their own lives and experiences. The strong cultural element helps students to establish a connection between language and life. Students are encouraged to learn about life in Britain and other English-speaking countries, as well as to explore differences and draw comparisons with their own cultures. Strong emphasis is placed on learner independence: students are encouraged to think about their own learning and reflect on their progress. The course is enriched by numerous songs, games, and puzzles which make language learning fun. The fifth level, Project Plus, is a revision level with the emphasis on skills extension, in particular reading and speaking.

Organized around realistic college lectures, the text guides learners through carefully sequenced activities in skills such as note-taking, focusing attention, intensive listening, and vocabulary building. It also helps students evaluate their interests and explore possible career paths. New to This Edition

New audio interviews with topic experts provide context for the upcoming unit lecture. Bottom-up listening and pronunciation exercises emphasize important principles and improve real-time perception. An oral presentation activity, supported by specific preparation and delivery strategies, concludes each unit and includes the opportunity for peer evaluation. Proficiency assessments composed of short academic audio lectures and multiple-choice exams simulate TOEFL-style test format for practice on high-stakes tests. New Essential Online Resources include audio, video, and teacher materials (assessments, teaching notes, answer

keys, audioscripts, presentation points, and more). Other Highlights Corpus vocabulary drawn from the Academic Word List ensures that students are exposed to core academic vocabulary. The intensification of contacts between cultures and languages has a major impact on all social spheres today. Multiculturalism and multilingualism are important elements of the local, regional, national and global community. Much of the world's conflict stems from the contrast between globalization and nationalism, fuelled by religions, racial divisions, traditions and other cultural particularities. Focusing mainly on the situation in Central and South-eastern Europe, this book addresses how cultural identities develop through tourism, education, literature and other social fields, and how language and literature teaching should be planned in this context. It consists of the following sections: Language, Culture and Tourism; Interculturalism, Multilingualism and Approaches to Language Learning; and

Culture in Literature and Translation. The volume will be of interest to teachers and researchers of cultural and tourism studies, linguistics and language learning, literary studies and translation, while also addressing wider readers interested in contemporary intercultural society.
