Newly available with an updated bibliographic essay, this highly acclaimed work explores the Huk rebellion, a momentous peasant revolt in the Philippines. Unlike prevailing top-down analysis, Kerkvliet seeks to understand the movement from the point of view of its participants and sympathizers. He argues that seeing a peasant revolt through the eyes of those who rebelled explains and

clarifies the actions of people who otherwise might appear irrational. Drawing on a rich array of documents and in-depth interviews with peasants and rebel leaders, the author provides definitive answers to the causes of the rebellion, the goals of the rebels, and the process of resistance. **Understanding
Crosscultural Discourse**
Birds of Prey Birds of Prey

(Mga Ibong Mandaragit) is a story of the valiant fight for justice and social change during and after the Japanese occupation of the Philippines in World War II. Originally written in Tagalog by revered Philippine National Artist in Literature Amado V. Hernandez, and translated to English by Estelita Constantino-Pangilinan, this socio-political novel depicts the oppression of the Filipino people by both the brutal occupiers and their own corrupt leaders, while holding out hope for a vision of an egalitarian society. Inspired by Jose Rizal's novels, it is a sequel to *El Filibusterismo*. *Birds of Prey* follows Mando

Plaridel, the guerrilla warrior who discovers his strength and greater purpose as he searches for and finds the treasure left behind by Rizal's protagonist Simoun. This historical fiction examines one country's past but its message resonates with the real and present struggles in societies around the world. Finding Our Feet Understanding Crosscultural Discourse At last, a way to improve your Tagalog! Written by Joi Barrios as the continuation of her best-selling Tagalog for Beginners book, Intermediate Tagalog is the first intermediate-level book designed specifically for people who already speak or understand some basic Tagalog and now wish to achieve greater fluency in speaking, reading and writing standard Filipino—the national language of the Philippines. The carefully-constructed lessons in this book point out common grammatical errors that English speakers make when speaking Tagalog, and present "real-life" conversations demonstrating how the language is spoken in Manila today. Extensive cultural notes are provided, along with

exercises and activities that introduce the use of the Tagalog language in a wide range of everyday situations. The 20 lessons give you all the basic skills needed to speak Tagalog fluently: paglalarawan (the ability to describe people, places and feelings); pagsasalaysay (the ability to tell a story—whether a news story, a folktale, or an anecdote); paglalahad (how to explain something—for example, a custom or tradition, or how to cook a dish); and pangangatuwiran (reasoning and abstract thinking). Each lesson is carefully structured in six key parts: A "real-life" dialogue providing valuable conversational skills. Avocabulary list to expand your familiarity with common, everyday Tagalog words and expressions. A grammar review section (for example, on the correct uses of affixes in various sentence constructions). Insightful cultural notes presenting aspects of the Philippines that may seem "odd" to outsiders, to explain how Filipino culture shapes the way people speak. A reading passage from a story or newspaper article, with comprehension questions. A writing exercise

designed to teach a specific writing skill. Using Intermediate Tagalog, you'll be able to talk about yourself, your family and your daily experiences using grammatically correct sentences and a native-speaker level vocabulary. No doubt this book will meet the demand of historians, linguists, mathematicians, numismatists, philippinologists and tagalists as well as all the readers interested in the unusual. Like the 1992 article on which it is based, this book is the first one in English to broach the difficult subject of numeral expressions in Old Tagalog and the various concepts and measures associated with them. The

book is about ten times as long as the article because it comprises a lexicon that deals with gold, money, taxes, usury, units of measurement, etc. Examples are numerous and generally drawn from such classics as the grammar of San Joseph (1610), Pinpin's manual (1610), the dictionaries of San Buenaventura (1613) and Noceda & Sanlucar (1754, 1860). Differently from the majority of publications on Tagalog, all the terms and examples are fully accented according to a precise system developed by the author, and explained in an appendix.

The literary canon is one of the most lively areas of debate in contemporary literary studies. This set of essays is both timely and original in its focus on the canon in South-East Asian literatures, covering Burma, Cambodia, Indonesia, Laos, Malaysia, Philippines, Thailand and Vietnam. They vary in focus, from the broad panoramic survey of trends in a national literature to very specific discussions of the role of individuals in shaping a canon or the place of a particular text within a

tradition, and from contemporary to traditional literature. They include discussions of the development of prose fiction, censorship and artistic freedom, the role of westerners in codifying indigenous literatures, the writing of literary history, the development of literary criticism and indigenous aesthetics. [Asian and African Studies](#) Rowman & Littlefield For Westerners and Americans in particular, Philippine culture is deceptively familiar. Vestiges of Spanish and American colonial culture, as well as contemporary American media, have created resonances for identifying American culture in Philippine culture. This book guides the reader in re-examining these assumptions of sameness. By taking an unfamiliar text of a noted writer of Tagalog fiction, this study restores the sense of wonder in experiencing Tagalog culture on its own terms rather than by tastes dictated from the outside. The book also examines the broader Tagalog traditions in which the writer, Amado Hernandez, wrote. [The Huk Rebellion](#) Institute of Southeast Asian Studies

These essays by Philippine and U.S.-based scholars illustrate the dynamism and complexities of the discursive field of Philippine studies as a critique of vestiges of "universalist" (Western/hegemonic)

paradigms; as an affirmation of "traditional" and "emergent" cultural practices; as a site for new readings of "old" texts and "new" popular forms brought into the ambit of serious scholarship; and as a liberative space for new art and literary genres.

journalism, the language urbane but always lucid. The learned references are always apropos and certain to be appreciated by city dwellers but perhaps out of reach of non-humanities majors.
