A collection of samurai stories, drawn from traditional sources, of battles, strategy, conflict, and intrigue--featuring some of the

greatest warriors and military leaders of the samurai era. Martial artist and samurai scholar Pascal Fauliot has collected and retold twenty-eight wisdom tales of the samurai era. The tales are set in the golden age of bushido and represent the pinnacle of traditional Japanese culture in which aristocratic tastes, feudal virtues, and martial skills come together with the implacable insights of Zen. Some of the stories--like "The Samurai and the Zen Cat"--are iconic; others are obscure. They feature notable figures from samurai history and legend: military leaders and strategists such as Oda Nobunaga, Toyotomi Hideyoshi, and Tokugawa Ieyasu; sword masters; ronin; the warrior monk Benkei, and the ninja-samurai Kakei Juzo, among many others. These samurai stories are pithy and engaging, and include tales of battle, strategy, loyalty conflicts, court intrigues, breakthroughs in a warrior's development, and vengeance achieved or foregone. Each tale reveals a gesture or an outcome that represents greater insight or higher virtue.

From New York Times bestselling author Mia Sheridan comes an emotional, slow burn romance about a woman desperate to hide and the man who sees through her walls, perfect for fans of Colleen Hoover and Lucy Score. I wanted to lose myself in the small town of Pelion, Maine. To forget everything I had left behind. The sound of rain. The blood. The coldness of a gun against my skin. For six months, each breath has been a reminder that I survived--and my dad didn't. I'm almost safe again. But the moment I meet Archer Hale, my entire world tilts on its axis . . . and never rights itself again. Until I trespass into his strange, silent, and isolated world, Archer communicates with no one. Yet in his whiskey-colored eyes, something intangible happens between us. There's so much more to him than just his beauty, his presence, or the ways his hands communicate with me. On me. But this town is mired in secrets and betrayals, and Archer is the explosive center of it all. So much passion. And so much hurt. But it's only in Archer's silence that we might just find what we need to heal . . . and live. Includes an exclusive extended epilogue from Archer's POV! A Goodread's "Top Romance Novel of All Time" A New York Times, USA Today, and Wall Street Journal bestseller

**With Winning in Mind** Shambhala Publications

Little gods, big personalities! This series follows little versions of the Greek gods who are at a camp to learn how to control their powers and use them properly--as well as learn how to get along with one another. The Little Olympians have decided to start a camp paper to report on all their feats! Hermes writes about an archery contest that Artemis wins. However, when the paper comes out, most of the article is about Apollo and how well he did, and Artemis is only mentioned briefly. She confronts Hermes about this, and he says he was just really impressed by Apollo, and Apollo's bragging made for a better story. Can Artemis get the boys to understand how it feels to be overlooked?

Heads You Win is international #1 bestseller Jeffrey Archer's most ambitious and creative work since Kane and Abel, with a final twist that will shock even his most ardent of fans. Leningrad, Russia, 1968: From an early age it is clear that Alexander Karpenko is destined to lead his countrymen. But when his father is assassinated by the KGB for defying the state, Alexander and his mother will have to escape Russia if they hope to survive. At the docks, they have an irreversible choice: board a container ship bound for America or one bound for Great Britain. Alexander leaves the choice to a toss of a coin... In a single moment, a double twist decides Alexander's future. During an epic tale, spanning two continents and thirty years, we follow Alexander through triumph and defeat as he sets out on parallel lives as Alex in New York and Sasha in London. As this unique story unfolds, both come to realize that to find their destiny they must face the past they left behind as Alexander in Russia.

Target Panic is not a disease, it is a hard wired self preservation system all of us have. Due to this reaction nearly every shooter

will encounter a Target Panic associated issue at some point in their shooting career. However, with proper education on how we are wired, and instruction on how to approach the problem most shooters can remedy and improve their shooting dramatically. In the book we provide a detailed explanation of what Target Panic is, the mental and physical symptoms of what an archer might experience with Target Panic, and a step by step guide to implementing Joel Turner's Controlled Process Shooting system.

*Archer's Quest* Human Kinetics Publishers

From celebrated art historian, curator, and teacher Sarah Lewis, a fascinating examination of how our most iconic creative endeavors—from innovation to the arts—are not achievements but conversions, corrections after failed attempts. The gift of failure is a riddle: it will always be both the void and the start of infinite possibility. The Rise—part investigation into a psychological mystery, part an argument about creativity and art, and part a soulful celebration of the determination and courage of the human spirit—makes the case that many of the world's greatest achievements have come from understanding the central importance of failure. Written over the course of four years, this exquisite biography of an idea is about the improbable foundations of a creative human endeavor. Each chapter focuses on the inestimable value of often ignored ideas—the power of surrender, how play is essential for innovation, the “near win” can help propel you on the road to mastery, the importance of grit and creative practice. The Rise shares narratives about figures past and present that range from choreographers, writers, painters, inventors, and entrepreneurs; Frederick Douglass, Samuel F.B. Morse, Diane Arbus, and J.K. Rowling, for example, feature alongside choreographer Paul Taylor, Nobel Prize-winning physicists Andre Geim and Konstantin Novoselov, and Arctic explorer Ben Saunders. With valuable lessons for pedagogy and parenting, for innovation and discovery, and for self-direction and creativity, The Rise “gives the old chestnut ‘If at first you don't succeed...’ a jolt of adrenaline” (Elle).

*The Rise* Waking Lion Press

A fascinating introduction to Zen principles and learning.

*Zen in the Art of Archery* Target Communications Corporation

No one knows for certain just when the bow and arrow came into use in America, but they were in use from the far North to the tip of South America when Europeans first arrived. Over the hemisphere the equipment ranged from very poor to excellent, with the finest bows of all being made in the Northwest of North America. Some of these bows rivaled the ancient classic bow in beauty of design and workmanship. The attitudes of whites toward Indian archers and their equipment have ranged from the highest of praise with mythical feats rivaling those of William Tell and Robin Hood--o mockery and derision for the Indians' short, "deformed" bows and small arrows. The Laubins have found most of the popular conceptions of Indian archery to be erroneous--as are most of the preconceived notions about Indians—and in this book they attempt to correct some of these false impressions and to give a true picture of this ancient art as practiced by the original Americans. Following an introduction and history of Indian archery are chapters on comparison of bows, bow making and sinewed bows, horn bows, strings, arrows, quivers, shooting, medicine bows, Indian crossbows, and blowguns. Those wishing

to learn something about the use of archery tackle by American Indians, something of the ingenuity associated with its manufacture and maintenance, and something about the

importance of archery in everyday Indian life will find in this book a wealth of new, valuable, and important information.
