Nell Crane has never held a boy's hand. In a city devastated by an epidemic, where survivors are all missing parts—an arm, a leg, an eye—Nell has always been an outsider. Her father is the famed scientist who created the biomechanical limbs that everyone now uses. But she's the only one with her machinery on the

inside: her heart. Since the childhood operation, she has ticked. Like a clock, like a bomb. And as her community rebuilds, everyone is expected to contribute to the society's good . . . but how can Nell live up to her father's revolutionary ideas when she has none of her own? Then she finds a lost mannequin's hand while salvaging on the beach, and inspiration strikes. Can Nell build her own companion in a world that fears advanced technology? The deeper she sinks into this plan,

the more she learns about her city—and her father, who is hiding secret experiments of his own. Sarah Maria Griffin's haunting literary debut will entrance fans of Patrick Ness's *Chaos Walking* series, Paolo Bacigalupi's *Ship Breaker*, and Emily St. John Mandel's *Station Eleven*.

Essex Serpent—soon to be an Apple TV+ Series “A beautiful, dream-like, unsettling narrative in which every word, like a small jewel, feels carefully chosen, considered and placed. Rarely do debut novels come as assured and impressive as this one.”—Sarah Waters, New York Times bestselling author of *The Paying Guests* Elegant, sinister and psychologically complex, *After Me Comes the Flood* is the haunting debut novel by Sarah Perry, the bestselling author of *The Essex*

Serpent and Melmoth. One hot summer’s day, John Cole decides to shut his bookshop early, and possibly forever, and drives out of London to see his brother. When his car breaks down on an isolated road, he goes looking for help and finds a dilapidated house. As he approaches, a laughing woman he’s never seen before walks out, addresses him by name and explains she’s been waiting for him. Entering the home, John discovers an enigmatic clan of residents all of whom

seem to know who he is, and also claim they have been awaiting his arrival. They seem to be waiting for something else, too—something final.... Written before Sarah Perry’s ascension to an internationally bestselling author, *After Me Comes the Flood* is a spectacular novel of obsession, conviction, and providence.

A Novel Harper Collins
 "As a law professor who teaches civil procedure and mediation, "Pursuing Settlement" reads like a history. Menkel-Meadow's uncanny accuracy in predicting the future, her prescient fears for where institutionalization of ADR might take us, and the remarkable continued relevance of her suggested reforms and

accompanying experimentation combine to make an easy case for declaring her work foundational. She challenged us to consider "whether new forms of dispute resolution will transform the courts or whether, in a more likely scenario, the power of our adversarial system will co-opt and transform the innovations designed to redress some, if not all, of our legal ills." (p. 5) And she offered a qualified "no" to the query whether the growth and expansion of ADR within institutions

has changed the consciousness of those who solve legal problems. What we now know With the benefit of 27 years of pursuing settlement in the shadow of litigation, what do we now know? Turns out, very little beyond what Menkel-Meadow presaged for us. Without question, I could now teach my entire procedure course using only case law decisions about disputed mediation issues (Coben, 2015). Exactly as Menkel-Meadow predicted, lawyers now routinely

"use" mediation as the all-purpose excuse for all sorts of failures and omissions ranging from incomplete discovery and failing to designate trial experts to late-filed motions and untimely requests to amend pleadings (Cole et al., 2019, ch. 5). Lawyers (and clients) fail to realize the numerous ways mediation participation (or non-participation) influences litigation decisions quite distinct from the mediation itself. Courts have, among other things, treated the failure

to participate in mediation as a factor in justifying: the pre-judgment attachment of property in aid of security, awards of prejudgment interest, and denials of continuance requests. Mediation behavior also is commonly invoked to support or deny awards of attorney's fees. Moreover, "traps for the unwary" abound (Coben, 2013). Parties have been deemed to have waived objections to venue and personal jurisdiction based on mediation participation. Requesting

time to mediate has been deemed evidence of the lack of imminent harm to justify granting of a temporary restraining order. Information exchanged in mediation has been relied upon to establish or negate the amount in controversy necessary to justify federal court diversity jurisdiction and removal. State court mediation efforts have been cited as a reason for federal courts to decline supplemental jurisdiction over state law claims. In my home state of Minnesota, a

settlement reached in mediation is evaluated under the law of contracts except that a mediated settlement must include the parties' affirmance that they intend the agreement to be binding upon them for the agreement actually to become binding - an affirmance that most first-year law students learn very early in their studies is akin to the "wax seal" or "ribbon" triviality no longer necessary to create a binding contract"--

 "My task which I am trying to achieve is, by the power of the written word, to make you hear, to make you feel—it is, before all, to make you see. That—and no more, and it is every-thing." So wrote Joseph Conrad in the best-known account of literary impressionism,

the late nineteenth- and early twentieth-century movement featuring narratives that paint pictures in readers' minds. If literary impressionism is anything, it is the project to turn prose into vision. But vision of what? Michael Fried demonstrates that the impressionists sought to compel readers not only to see what was described and narrated but also to see writing itself. Fried reads Conrad, Stephen Crane, Frank Norris, W. H. Hudson, Ford Madox Ford,

H. G. Wells, Jack London, Rudyard Kipling, Erskine Childers, R. B. Cunninghame Graham, and Edgar Rice Burroughs as avatars of the scene of writing. The upward-facing page, pen and ink, the look of written script, and the act of inscription are central to their work. These authors confront us with the sheer materiality of writing, albeit disguised and displaced so as to allow their narratives to proceed to their ostensible ends. What Was Literary Impressionism? radically

reframes a large body of important writing. One of the major art historians and art critics of his generation, Fried turns to the novel and produces a rare work of insight and erudition that transforms our understanding of some of the most challenging fiction in the English language.
