 Exploring a wealth of incredible winged fauna, this fascinating compendium travels to the tropical setting of Colombia, where many different climates blend to encourage the development of habitats. The country's diverse landscapes are explored along with the rare beauty of its singular birds, showcasing their distinct plumage, colors, various sizes, songs, beaks, and wings. Illustrating how these creatures are currently threatened, this study also highlights the inadequate colonization and urbanization, deforestation, and many other factors that could potentially destroy

the habitats of many species, increasing their rates of extinction. Suggestions for defensive and protective actions are included.
