A classic memoir that's gripping, funny, and ultimately unforgettable from the bestselling former National Ambassador of Books for Young People. A strong choice for summer reading—an engaging and powerful autobiographical exploration of growing up a so-called "bad boy" in Harlem in the 1940s. As a

boy, Myers was quick-tempered and physically strong, always ready for a fight. He also read voraciously—he would check out books from the library and carry them home, hidden in brown paper bags in order to avoid other boys' teasing. He aspired to be a writer (and he eventually succeeded). But as his hope for a successful future diminished, the values he had been taught at

home, in school, and in his community seemed worthless, and he turned to the streets and to his books for comfort. Don't miss this memoir by New York Times bestselling author Walter Dean Myers, one of the most important voices of our time.

A critical and accessible text, this book provides a foundation for translanguagi

ng theory and practice with educating emergent bilingual students. The product of the internationally renowned and trailblazing City University of New York-New York State Initiative on Emergent Bilinguals (CUNY-NYSIEB), this book draws on a common vision of translanguaging to present different perspectives of its practice and outcomes in real schools. It tells the story of the collaborative

project's positive impact on instruction and assessment in different contexts, and explores the potential for transformation in teacher education. Acknowledging oppressive traditions and obstacles facing language minoritized students, this book provides a pathway for combatting racism, monolingualism, classism and colonialism in the classroom and offers narratives,

strategies and pedagogical practices to liberate and engage emergent bilingual students. This book is an essential text for all teacher educators, researchers, scholars, and students in TESOL and bilingual education, as well as educators working with language minoritized students. *Translanguaging and Transformative Teaching for Emergent Bilingual Students* Yale University

what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content. NewsMax Media, Inc. This collection of essays grew out of the "Reading Stephen King Conference" held at the University of Maine in 1996. Stephen King's books have become

a lightning rod for the tensions around issues of including "mass market" popular literature in middle and high school English classes and of who chooses what students read. King's fiction is among the most popular of "pop" literature, and among the most controversial. These essays spotlight the ways in which King's work intersects with the themes of the literary canon and its

“WE NEED TO TALK.” In this urgent and insightful book, public radio journalist Celeste Headlee shows us how to bridge what divides us--by having real conversations

“We Need to Talk is an important read for a conversationally-challenged, disconnected age. Headlee is a talented, honest storyteller, and her advice has helped me become a better spouse, friend, and mother.” (Jessica Lahey, author of New York Times bestseller The

Gift of Failure)

Today most of us communicate from behind electronic screens, and studies show that Americans feel less connected and more divided than ever before. The blame for some of this disconnect can be attributed to our political landscape, but the erosion of our conversational skills as a society lies with us as individuals. And the only way forward, says Headlee,

is to start talking to each other. In *We Need to Talk*, she outlines the strategies that have made her a better conversationalist—and offers simple tools that can improve anyone’s communication. For example: **BE THERE OR GO ELSEWHERE**. Human beings are incapable of multitasking, and this is especially true of tasks that involve language. Think you can type up a few

emails while on a business call, or hold a conversation with your child while texting your spouse? Think again. **CHECK YOUR BIAS**. The belief that your intelligence protects you from erroneous assumptions can end up making you more vulnerable to them. We all have blind spots that affect the way we view others. Check your bias before you judge someone else. **HIDE YOUR**

**PHONE**. Don’t just put down your phone, put it away. New research suggests that the mere presence of a cell phone can negatively impact the quality of a conversation. Whether you’re struggling to communicate with your kid’s teacher at school, an employee at work, or the people you love the most—Headlee offers smart strategies that can help us all have conversations that matter.
