'On this CD are sample files so that you can follow along with exercises in the book, software to help you get the most out of CorelDRAW 9 and

some multimedia tutorials to help you learn more about using CorelDRAW 9. This document will tell you how to get the most out of the CD and we've also provided links to sites on the Internet that we think you'll find useful'. (CD-ROM)

CorelDraw! 4 Revealed Firewall Media

This book written as per the syllabus of Bihar Polytechnic, provides the students not just the knowledge about the fundamentals of a computer system, like its organization, memory management and hardware devices, but also the software that run on it. The book then proceeds to describe operating systems, and the basics of programming concepts like

procedure-oriented programming and object-oriented programming. Useful application software like MS Word, MS Excel and MS PowerPoint are described in great detail in separate chapters. A complete section has been devoted to the teaching of data communication, networking and Internet. The book ends with a detailed description of the business applications of computers.
