SOFT TARGET is a chilling fictional story that takes the reader inside the hearts and minds of a violent terrorist cell. Based around the Terrorist Task Force the story is a rollercoaster ride of frighteningly real events across America and the UK. The story is the first of three that follow the lead agent John Tankersley, AKA, Tank. The plot has been described as worryingly good. Controversy and violence are never far away when Tank and the Task Force are around.

WALNECK'S CLASSIC CYCLE TRADER, FEBRUARY 2002 Hungry Tomato™

With a career in literature and art spanning more than sixty years, John

Berger is characterized by an independent and anti-institutional approach to creativity. Working in a range of media including novels, painting, essays and scriptwriting, Berger's voice has resounded through mainstream and alternative culture alike. He is perhaps best known for his seminal book of art criticism *Ways of Seeing*, published in 1972. Tied directly into a four-part BBC television series, the book presented a radical new interpretation of Western cultural aesthetics. In the same year, Berger's experimental novel *G.* was awarded the Man Booker Prize for Fiction, cementing his reputation as a boundary-pushing writer and thinker. In this concise yet detailed study of Berger's life and work, the first for decades, Andy Merrifield sheds light on Berger the man, the artist, and the concerned citizen. Merrifield shows Berger to be a figure who constantly strives to open up new horizons, and also reveals the depth of feeling that infuses even his most intellectual work. In this sense, Berger is a creator who feels reality like the irrationalist Rousseau, yet is also a meticulous realist, probing objects critically and rationally like Spinoza. John Berger stitches together art, literature, biography and politics into a lucid, coherent whole. The result is a reader-friendly, freewheeling narrative, which gives fascinating insight into one of the most influential thinkers of our times. The book is essential reading for students and scholars of art, literature and twentieth-century culture.

WALNECK'S CLASSIC CYCLE TRADER, AUGUST 2001 Clymer Repair Manuals
The true story of a killer nurse whose crimes were hidden by a hospital for years. It's 1980, and Genene Jones is working the 3 to 11 PM shift in the

pediatric ICU in San Antonio's county hospital. As the weeks go by, infants under her care begin experiencing unexpected complications—and dying—in alarming numbers, prompting rumors that there is a murderer among the staff. Her eight-hour shift would come to be called “the death shift.” This strange epidemic would continue unabated for more than a year, before Jones is quietly sent off—with a good recommendation—to a rural pediatric clinic. There, eight children under her care mysteriously stopped breathing—and a 15-month-old baby girl died. In May 1984, Jones was finally arrested, leading to a trial that revealed not only her deeply disturbed mind and a willingness to kill, but a desire to play “God” with the lives of the children under her care. More shocking still was that the hospital had shredded records and remained silent about Jones’ horrific deeds, obscuring the full extent of her spree and prompting grieving parents to ask: Why? Elkind chronicles Jones’ rampage, her trials, and the chilling aftermath of one of the most horrific crimes in America, and turns his piercing gaze onto those responsible for its cover-up. It is a tale with special relevance today, as prosecutors, distraught parents, and victims’ advocates struggle to keep Jones behind bars. “A horrifying true-life medical thriller...”—Publishers Weekly
“Gripping...A remarkable journalistic achievement!”—Newsweek
“Murder, madness, and medicine...superb!”—Library Journal
“Shocking...true crime reporting at its most compelling.”—Booklist
