The New York Public Library staff answers questions remarkable and preposterous, with illustrations by Barry Blitt. Have you've ever wondered if you can keep an octopus in a private home? Do you spend your time thinking about how much Napoleon's brain weighed? If so, Peculiar Questions and Practical Answers is the book for you. The New York Public Library has been fielding questions like these ever since it was founded in 1895. Of course, some of the questions have left

the librarians scratching their heads... "In what occupations may one be barefooted?" "What time does a bluebird sing?" "What does it mean when you're being chased by an elephant?" "What kind of apple did Eve eat?" "How many neurotic people are there in the U.S.?" In Peculiar Questions and Practical Answers, the staff of the NYPL has dug through the archives to find thoughtful and often witty answers to over one hundred of the oddest, funniest, and most whimsical questions the

library has received since it began record-keeping over seventy-five years ago. One of The New Yorker's best-known and beloved illustrators, Barry Blitt, has created watercolors that bring many of the questions hilariously to life in a book that answers, among others, the question "Does anyone have a copyright on the Bible?"

Answers to the Practical Questions and Problems Contained in the Fourteen Weeks' Courses Palala Press

Cosmetology Exam

Practice Questions are the simplest way to prepare for the Cosmetology test. Practice is an essential part of preparing for a test and improving a test taker's chance of success. The best way to practice

taking a test is by going through lots of practice test questions. If someone has never taken a practice test, then they are unprepared for the types of questions and answer choices that they will encounter on the official test. There is a tremendous advantage to someone taking the test that is already familiar with the questions and answer choices. Another advantage of taking practice tests is that you can assess your performance and see if you need to study and

practice more, or if you're already prepared enough to achieve success on your test day. If you do well on the practice test, then you know you're prepared. If you struggle on the practice test, then you know you may still have more work to do to get prepared. Taking lots of practice tests helps ensure that you are not surprised or disappointed on your test day. Our Cosmetology Exam Practice Questions give you the opportunity to test your knowledge on a set of questions. You can

know everything that is going to be covered on the test and it will not do you any good on test day if you have not had a chance to practice. Repetition is a key to success and using practice test questions allows you to reinforce your strengths and improve your weaknesses. Detailed answer explanations are also included for each question. It may sound obvious, but you have to know which questions you missed (and more importantly why you

missed them) to be able to avoid making the same mistakes again when you take the real test. That's why our Cosmetology Exam Practice Questions include answer keys with detailed answer explanations. These in-depth answer explanations will allow you to better understand any questions that were difficult for you or that you needed more help to understand.

Dealing with all the aspects of diabetes in clinical practice, this book offers a comprehensive, easy-to-use guide to help

healthcare professionals achieve their target of optimal management and treatment of their patients. Diabetes in Clinical Practice: Questions and Answers from Case Studies is presented in the form of questions concerning diabetes diagnosis, management and therapy based on real-life case studies. Each question is answered in a clear, easy to follow style. The authors begin with general questions regarding diabetes, its pathophysiology and

diagnostic tests. They then cover all the major complications that can arise in a patient with poorly controlled diabetes. The authors also discuss special groups, such as adolescents and the elderly. The book features useful information for patients and their healthcare professionals on daily activities such as exercise, nutrition, driving, travelling and sick day rules. Diabetes in Clinical Practice: Questions and Answers from Case Studies is an

indispensable resource for all members of the diabetes team, in primary and secondary care: physicians, diabetes specialist nurses, diabetes educators, dieticians, podiatrists, endocrinologists and postgraduate medical students.

Excerpt from Practical Electricity: With Questions and Answers This book was written especially to assist those who have some practical knowledge of electricity and who wish to learn more of the way in which Wiring is calculated and of the

simpler and more important parts of dynamo electric machine design. Some of the methods used and explanations advanced in the book are, so far as the writers know, entirely new, and it has all been written with the idea of illustrating the subject and making it as simple and as easy of comprehension as possible. The only way to obtain a working knowledge of the subject is by careful study. The book has been arranged so that those who are

willing to devote some effort to the work can get a clear conception of the more important ideas and laws that underlie the subject. One who studies the text and answers the questions at the end of each chapter should be able to calculate a wiring job for lights or power; to calculate the proper size and amount of wire for a dynamo when he has the dimensions of the machine; to calculate the size and Winding for a magnet to give a required pull, etc. About the

For over 26 years piano teachers relied on Frances Clark's column in Clavier magazine for insightful, inspiring answers to their questions. Some of her best advice on subjects ranging from repertoire to fingering appears in this informative volume for piano teachers. Topics include: Lesson Plans, Rhythm, theory, Ear Training, Memorizing, Phrasing, Group Lessons, Recitals, Adult Students, and Transfer Students. "Frances Clark's 'Questions and Answers' in Clavier has been a

monthly source of inspiration for piano teachers since its inception. This compilation will serve as a special pedagogy text for both new and experienced teachers." -- E.L. Lancaster "With the same morning dash

reserved for Ann Landers, it has been ritual for me to open the latest issue of Clavier to the back page first for 'Questions and Answers.' The mail usually arrives minutes before my first student of the day, and it is amazing how often I have found immediate relevance in

one of Frances Clark's timely topics." --Suzanne Guy "Those of us who value teaching value the words and thoughts of Frances Clark. She is a continuing inspiration to us and our students." -- Tony Caramia
