Animal Farm by George Orwell (Book analysis) Penguin UK
The State of the World's Land and Water Resources for Food and Agriculture is FAO's first flagship publication on the global status of land and water resources. It is an 'advocacy' report, to be published every three to five years, and targeted at senior level decision makers in agriculture as well as in other sectors. SOLAW is aimed at sensitizing its target audience on the status of land resources at global and regional levels and FAO's viewpoint on appropriate recommendations for policy formulation. SOLAW focuses on these key dimensions of analysis: (i) quantity, quality of land and water resources, (ii) the rate of use and sustainable management of these resources in the context of relevant socio-economic driving factors and concerns, including food security and poverty, and climate change. This is the first time that a global, baseline status report on land and water resources has been made. It is based on several global spatial databases (e.g. land suitability for agriculture, land use and management, land and water degradation and depletion) for which FAO is the world-recognized data source. Topical and emerging issues on land and water are dealt with in an integrated rather than sectoral manner. The implications of the status and trends are used to advocate remedial interventions which are tailored to major farming systems within different geographic regions.

The book tells the story of a group of farm animals who rebel against their human farmer, hoping to create a society where the animals can be equal, free, and happy. Ultimately, the rebellion is betrayed, and the farm ends up in a state as bad as it was before, under the dictatorship of a pig named Napoleon. The original title was *Animal Farm: A Fairy Story*, but U.S. publishers dropped the subtitle when it was published in 1946, and only one of the translations during Orwell's lifetime kept it. Other titular variations include subtitles like "A Satire" and "A Contemporary Satire". ---- *The Art of War* Sun Tzu Bestseller Book *The Art of War* *The Art of War* is traditionally attributed to an ancient Chinese military general known as Sun Tzu meaning "Master Sun". Sun Tzu was traditionally said to have lived in the 6th century BC, but *The Art of War*'s earliest parts probably date to at least 100 years later. Sun Tzu was a Chinese general, military strategist, and philosopher whose books have universal resonance even in the contemporary time. *The Art of War* has inspired Mao Zedong's writings about Guerrilla warfare. Ho Chi Minh translated *The Art of War* for his generals to study.

Sun Tzu's *Art of War* is a widely acclaimed book on military strategy that has influenced and shaped the idea of Western and Eastern nations' military philosophy. It presents complete instructions on how to win battles and manage conflicts. The theories proposed in *Art of War* are extremely beneficial on the battleground and have been tried and tested by many successful military generals around the world. It is difficult to ascertain exactly when was this book written and many historians have ascribed it to different times. ---- *The Lesser Key of Solomon* "Samuel Liddell (8 or 11 January 1854 - 5 or 20 November 1918), born Samuel Liddell Mathers, was a British occultist. He is primarily known as one of the founders of the Hermetic Order of the Golden Dawn, a ceremonial magic order of which offshoots still exist. He became so synonymous with the order that Golden Dawn scholar Israel Regardie observed in retrospect that "the Golden Dawn was MacGregor Mathers." Mathers added the "MacGregor" surname as a claim to Highland Scottish heritage. He was a practicing vegetarian, or (according to some accounts) vegan, an outspoken anti-vivisectionist, and a non-smoker. It is known that his main interests were magic and the theory of war, his first book being a translation of a French military manual, *Practical Instruction in Infantry Campaigning Exercise* (1884). Mathers became increasingly eccentric in his later years as was noted by W. B. Yeats. ---- *Metamorphosis* Often cited as one of the most influential works of short fiction of the 20th century, *Metamorphosis* is widely studied in colleges and universities across the western world. Nobel Peace Prize winner Elias Canetti described it as "one of the few great and perfect works of the poetic imagination written..." 'One morning, when Gregor Samsa woke from troubled dreams, he found himself transformed in his bed into a horrible vermin.'

Gordon Comstock has 'declared war' on what he sees as an 'overarching dependence' on money by leaving a promising job as a copywriter for an advertising company called 'New Albion'—at which he shows great dexterity—and taking a low-paying job instead, ostensibly so he can write poetry. Coming from a respectable family background in which the inherited wealth has now become dissipated, Gordon resents having to work for a living. The 'war' (and the poetry), however, aren't going particularly well and, under the stress of his 'self-imposed exile' from affluence, Gordon has become absurd, petty and deeply neurotic...

Animal Farm by George Orwell Research & Education Assoc. George Orwell set out 'to make political writing into an art', and to a wide extent this aim shaped the future of English literature – his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and *Animal Farm* are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In *Politics and the English Language*, the second in the Orwell's Essays series, Orwell takes aim at the language used in politics, which, he says, 'is designed to make lies sound truthful and murder respectable, and to give an appearance of solidity to pure wind'. In an age where the language used in politics is constantly under the microscope, Orwell's *Politics and the English Language* is just as relevant today, and gives the reader a vital understanding of the tactics at play. In his acclaimed columns in the London Times and Prospect, A. C. Grayling often responds to provocative questions posed by editors and readers. These questions serve as the basis for the essays in Thinking of Answers, among them searching examinations of the following: - Are human beings especially prone to self-deception? - If beauty existed only in the eye of the beholder, would that make it an unimportant quality? - Are human rights political? - Can ethics be derived from evolution by natural selection? - If both sides in a conflict passionately believe theirs is a just cause, does this mean the idea of justice is empty? - Does being happy make us good? And does being good make us happy? As in his previous books on philosophy for the general public, including Meditations for the Humanist and Life, Sex and Ideas, rather than presenting a set of categorical answers, Grayling offers suggestions for how to think about every aspect of the question at hand and arrive at one's own conclusion. Nobody can read Thinking of Answers without being fully engaged, for Grayling challenges with his intellect and inspires with his humanity.
