Etektuning.com
 The B6 & B7 S4 4.2 liter engine utilizes a chain driven timing system which is located on the backside of the engine facing the firewall. So, service position on a B6/B7 S4 does not mean just removing the front clip, it requires engine removal unlike the older 4.2L V8's found in the A8, A6 etc. A question you might ask is: If this car doesn't have a timing

belt, doesn't the chain mean this is maintenance free?
