Timeless tales from all over India From Bengal to Bastar and Kashmir to Coorg, there are stories that have been handed down generations: bedtime stories for children, fireside stories for travellers, who have heard these tales, wondered at them and repeated them to others.

In *A Twist in the Tale: More Indian Folktales*, Aditi De collects forty such stories from various parts of India and retells them with dollops of humour. A friendless crocodile, a timid mouse and a vain fox are among some of the eccentric characters that appear in this book. There is also a

clever princess, a hapless priest with heron feathers flying out of his mouth, and galleries of rogues. Strange happenings are not uncommon, so a nail tree grows out of nail clippings and a beetle saves a man from the dungeons. Full of the details of everyday life, festivities and food, these ageless stories have seldom been so exciting and such fun.

Accompanied by Uma Krishnaswamy's brilliant illustrations, this book will introduce the magic of Indian folktales to a new generation of readers.

This book of oral tales from the south Indian region of Kannada represents the culmination of a lifetime of research by A. K. Ramanujan, one of the most revered scholars and writers of his time. The result of over three decades' labor, this long-awaited collection makes available for the first time a wealth of folktales from a region that has not yet been adequately represented in world literature. Ramanujan's

skill as a translator, his graceful writing style, and his profound love and understanding of the subject enrich the tales that he collected, translated, and interpreted. With a written literature recorded from about 800 A.D., Kannada is rich in mythology, devotional and secular poetry, and more recently novels and plays. Ramanujan, born in Mysore in 1929, had an intimate knowledge of the language. In the 1950s, when working as a college lecturer, he began collecting these tales from everyone he could--servants, aunts, schoolteachers, children, carpenters, tailors. In 1970 he began translating and interpreting the tales, a project that absorbed him for the next three decades. When Ramanujan died in 1993, the translations were complete and he had written notes for about half of the tales. With its unsentimental sympathies, its laughter, and its delightfully vivid sense of detail, the collection stands as a significant and moving monument to Ramanujan's memory as a scholar and writer. The greater part of their literature is of a sacred nature, telling of their creation, of the formation of the world, of Buddha and his miraculous birth and death, of his reincarnations and the revisions of his teachings.

A kind of almanac, a little astronomy, plans for casting a horoscope, and many books filled with religious teachings and superstitions, including the worship of devils and demons, are about all that can be found. The 49 little stories in this book are told as the people sit around their boiling tea made over a three stone camp-fire. They are handed down from father to son, from mother to daughter, and though often filled with their

superstitious beliefs, through them all run a vein of humor and the teachings of a moral truth which is quite unexpected. These tales were gathered by Dr. A. L. Shelton on his trips among the Tibetans, around their camp-fires at night, and in their black tents high up in the mountains. Every country has its folk-lore tales that have always been a joy and pleasure to the children, not only of their own land, but of other

lands as well. May these stories add a little to this pleasure and enjoyment everywhere, in whatsoever tongue they may be translated or in whatever land they may be read. Flora Beal Shelton 1925
