Don't spend time flipping through pages in a blank notebook. Show up to clinics prepared with a veterinary patient organizer! "Case No. \_\_\_\_\_" is a notebook designed for the small animal veterinarian or veterinary nurse with a heavy case load. It will keep your patient data organized and easy to reference. It will serve as a foundation for performing a thorough and consistent history and physical exam. It will provide normal reference values for those critical physical examination findings. This notebook holds a total of 52 templates: 43 complete history and physical exam templates, 3 orthopedic exam templates, 3 neurology exam templates, and 3 ophthalmology exam templates. Each patient is given 4 pages (2 pages front and back), which are oriented side by side for convenient viewing and include signalment, history, physical exam, problem list, diagnostic plan, treatment plan, and extra space for notes. This standard edition notebook is 8.5x11 inches. Advantages of this standard edition notebook compared to the pocket edition notebook include: larger (11 pt) font throughout the history and physical exam templates, larger page margins for note taking, and an overall greater area of space for note taking. Considering a veterinarian's most useful diagnostics are a thorough history and physical examination, 4 pages (2 pages front and back) is an appropriate number of pages to dedicate to each patient. While on clinics, the standard edition notebook is this author's format of choice. Thank you for your interest and happy doctoring!
