## FRENCH HADASSAH

[Researching Far-Right Movements](#) Routledge

This incredible exploration of the murky world of pseudo-history reveals the mix of proven facts, informed speculation, and pure fiction behind lost continents, ancient super-civilizations, and conspiratorial cover-ups—as well as the revisionist historical foundations of religions such as the Nation of Islam and the Church of Jesus Christ of Latter-day Saints. Drawing on the best scholarship available, Ronald H. Fritze shows that in spite of strong, mainstream historical evidence to the contrary, many of these ideas have proved durable and gained widespread acceptance. As the examples in *Invented Knowledge* reveal, pseudo-historians capitalize on and exploit anomalies in evidence to support their claims, rather than examining the preponderance of research as a whole.

Univ. Press of Mississippi

This volume takes an objective look at the white supremacy movement since WWII in the United States and Europe, and offers entries describing the people, groups, and themes that make up the radical racist right. Some of the entries have been written by movement activists, others by a variety of scholars. The second half of the volume includes primary documents of resources circulated within the movement, each prefaced by Kaplan (American studies, U. of Helsinki, Finland) and placed in historical and scholarly context. The material is at times offensive, but presented in an academic way. Annotation copyrighted by Book News Inc., Portland, OR

**The Life and Crimes of Racist Killer Joseph Paul Franklin** Rowman & Littlefield

With an overview essay, timeline, reference entries, and annotated bibliography, this resource is a concise one-stop reference on antisemitism in today's society. Stretching back to biblical times, antisemitism is perhaps the world's oldest hatred of a group. It has manifested itself around the world, sometimes taking the form of superficially innocent jokes and at other times promoting such tragedies as the Holocaust. Far from disappeared, its continued existence in today's society is evidenced by vandalism of Jewish cemeteries and shootings at synagogues.

This book explores the causes and consequences of contemporary antisemitism, placing this form of hatred in its historical, political, and social contexts. An overview essay surveys the background and significance of antisemitism and provides historical context for discussions of contemporary topics. A timeline highlights key events related to antisemitism. Some 50 alphabetically arranged reference entries provide objective, fundamental information about people, events, and other topics related to antisemitism. These entries cite works for further reading and provide cross-references to related topics. An annotated bibliography cites and evaluates some of the most important resources on antisemitism suitable for student research. An overview essay places antisemitism in its historical context and discusses its contemporary significance. A timeline identifies key developments related to antisemitism. Roughly 50 alphabetically arranged reference entries provide objective, fundamental information about topics related to antisemitism, with an emphasis on modern society. Entry bibliographies direct users to specific sources of additional information. An annotated bibliography lists and evaluates some of the most important broad works on antisemitism.

*A Sourcebook on the Radical Racist Right* R&L Education

As extreme and far right movements become increasingly widespread in many countries, the sociology of social movements is called to confront them. This book addresses the specific challenges entailed by the empirical study of such movements, presenting case studies from Japan, Thailand, England, France, Italy, the USA, and Turkey. Based on empirical fieldwork, the chapters explore the ethics and politics of researching far right movements, considering the researcher's reflexivity and the methodological issues raised by being emotionally linked to a research object that affirms and strives for values that differ markedly from those of the researcher. As such, it will appeal to scholars of sociology and politics with interests in social movements and research methods.

**Blood and Politics** Encyclopedia of White PowerA Sourcebook on the Radical Racist Right

In 1968, Winthrop D. Jordan published his groundbreaking work *White Over Black: American Attitudes toward the Negro, 1550-1812* and opened up new avenues for thinking about sex, slavery, race, and religion in American culture. Over the course of a forty-year career at the University of California and the University of Mississippi, he continued to write about these issues and to train others to think in new ways about interactions of race, gender, faith, and power. Written by former students of Jordan, these essays are a tribute to the career of one of America's great thinkers and perhaps the most influential American historian of his generation. The book visits historical locales from Puritan New England and French Louisiana to nineteenth-century New York and Mississippi, all the way to Harlem swing clubs and college campuses in the twentieth century. In the process, authors listen to the voices of abolitionists and white supremacists, preachers and politicians, white farm women and black sorority sisters, slaves, and jazz musicians. Each essay represents an important contribution to the collection's larger themes and at the same time illustrates the impact Jordan exerted on the scholarly life of each author.

Collectively, these pieces demonstrate the attentiveness to detail and sensitivity to sources that are hallmarks of Jordan's own work. David J. Libby, San Antonio, Texas, is the author of *Slavery and Frontier Mississippi: 1720-1835* (University Press of Mississippi). Paul Spickard, Santa Barbara, California, is the co-editor of *Racial Thinking in the United States: Uncompleted Independence* and the author of *Mixed Blood: Intermarriage and Ethnic Identity in Twentieth-Century America*. Susan Ditto, Oxford, Mississippi, is the associate editor of *Mississippi Women: Their Histories, Their Lives*.

**Its Challenge to Integration** Farrar, Straus and Giroux  
Believing himself to be on a "God-given mission," Joseph Paul Franklin was the only racially motivated serial killer ever pursued by the Justice Department. Mel Ayton examines his murderous life, from his poverty-stricken youth in a backward Alabama suburb to his indoctrination by militant Nazis and southern racists to his eventual capture by the Federal Bureau of Investigation. Ayton's exhaustive report uncovers the truth behind Franklin's three-year undertaking to murder Jews and African Americans. White supremacist Franklin was, by his own admission, an outlaw, a racist, and weird. As a neo-Nazi and Ku Klux Klansman, he violently enforced his views by embarking on a "lone hunter" mission to kill. He saw African Americans and Jews as subhuman and knew no moral obstacle to racial violence, invoking the Bible to support his criminal acts. As Franklin's 1977-80 killing spree was contemporaneous with other racially charged incidents that other Klansmen and neo-Nazis wrought throughout the United States, his story also exposes how hate organizations have made killers out of disaffected and bitter young men. In this first full-length book about Franklin, Ayton reveals a shocking and unsavory side of American society.

President Obama has declared that the greatest terrorist threat which America faces is attacks by lone wolf terrorists. This volume expands the lone wolf rubric to include autonomous cells: small groups of terrorists who cooperate, but operate independently. The challenge presented by lone wolves and autonomous cells, unlike the threat emanating from established terrorist groups like Al Qaeda, has proven intractable because of the difficulty of gathering intelligence on these actors or effectively countering their actions. Lone wolves operate under the radar, staging deadly attacks such as that at the Boston Marathon, and the 2011 attacks in Norway. This volume includes Theory and Policy Studies, individual case studies and the technological impacts of chemical, biological and nuclear weapons as well as the impact of social media in the process of recruitment and radicalization. This book was originally published as a special issue of *Terrorism &*

*Political Violence*.

*Mein Kampf* Routledge

An A to Z presentation of over 400 articles on African American politics and notable people, from the abolitionist movement to Whitney Young.

*White Rage* ABC-CLIO

Hier werden in mehrfacher Hinsicht neue Akzente gesetzt: Erstens sind alle Beiträge vergleichend angelegt und überschreiten den nationalen Rahmen. Zweitens ist das östliche Europa in etwa gleichgewichtig vertreten, obwohl die Forschungslage weit ungünstiger ist als für das westliche. Drittens behandelt der Band nicht nur den parteiförmig organisierten Rechtsextremismus und das damit verbundene Wahlgesehen, sondern bezieht zum einen militante Szenen und Subkulturen einschließlich mancher paramilitärischer Erscheinungen im östlichen Europa, zum anderen das weite Feld politischer Ideen und kultureller Trends und ihren Einfluss auf die europäische politische Kultur mit ein – auch hier wiederum in vergleichender und Ländergrenzen überschreitender Anlage.

*Years of Rage* Lexington Books

'MEIN KAMPF' is the autobiography of Adolf Hitler gives detailed insight into the mission and vision of Adolf Hitler that shook the world. This book is the merger of two volumes. The first volume of MEIN KAMPF' was written while the author was imprisoned in a Bavarian fortress. The book deals with events which brought the author into this blight. It was the hour of Germany's deepest humiliation, when Napoleon has dismembered the old German Empire and French soldiers occupied almost the whole of Germany. The books narrates how Hitler was arrested with several of his comrades and imprisoned in the fortress of Landsberg on the river Lech. During this period only the author wrote the first volume of MEIN KAMPF. The Second volume of MEIN KAMPF was written after release of Hitler from prison and it was published after the French had left the Ruhr, the tramp of the invading armies still echoed in German ears and the terrible ravages had plunged the country into a state of social and economic Chaos. The beauty of the book is, MEIN KAMPF is an historical document which bears the imprint of its own time. Moreover, Hitler has declared that his acts and 'public statements' constitute a partial revision of his book and are to be taken as such. Also, the author has translated Hitler's ideal, the Volkischer Staat, as the People's State. The author has tried his best making German Vocabulary easy to understand. You will never be satisfied until go through the whole book. A must read book, which is one of the most widely circulated and read books worldwide.

[Encyclopedia of Right-Wing Extremism In Modern American History](#) Rowman & Littlefield

To better understand current events and threats, this book outlines the organizations and beliefs of domestic terrorists in the United States and how to counter their attacks on American democracy. Who are the American citizens--White nationalists and militant Islamists--perpetrating acts of terrorism against their own country? What are their grievances and why do they hate? How can this transnational peril be effectively addressed? *Homegrown Hate* is a groundbreaking and deeply researched work that directly compares White nationalists and militant Islamists in the United States. In this timely book, scholar and holistic justice activist Sara Kamali examines these Americans' self-described beliefs, grievances, and rationales for violence, and details their organizational structures within a transnational context. She presents compelling insight into the most pressing threat to homeland security not only in the United States, but in nations across the globe: citizens who are targeting their homeland according to their respective narratives of victimhood. She also explains the hate behind the headlines and provides the tools to counter this hate from within, cogently offering hope in uncertain and divisive times. Innovative and engaging, this is an indispensable resource for all who cherish equity and justice in the United States and around the world.

**Race in Mind** SAGE

More than fifteen years in the making, *Blood and Politics* is the most comprehensive history to date of the white supremacist movement as it has evolved over the past three-plus decades. Leonard Zeskind draws heavily upon court documents, racist publications, and first-person reports, along with his own personal observations. An internationally recognized expert on the subject who received a MacArthur Fellowship for his work, Zeskind ties together seemingly disparate strands—from neo-Nazi skinheads,

to Holocaust deniers, to Christian Identity churches, to David Duke, to the militia and beyond. Among these elements, two political strategies—mainstreaming and vanguardism—vie for dominance. Mainstreamers believe that a majority of white Christians will eventually support their cause. Vanguardists build small organizations made up of a highly dedicated cadre and plan a naked seizure of power. Zeskind shows how these factions have evolved into a normative social movement that looks like a demographic slice of white America, mostly blue-collar and working middle class, with lawyers and Ph.D.s among its leaders. When the Cold War ended, traditional conservatives helped birth a new white nationalism, most evident now among anti-immigrant organizations. With the dawn of a new millennium, they are fixated on predictions that white people will lose their majority status and become one minority among many. The book concludes with a look to the future, elucidating the growing threat these groups will pose to coming generations.

*Continuities and Transformations* Duke University Press

This book examines the response to right-wing extremism in the US from both the government and non-governmental organisations. It provides a detailed portrait of the contemporary extreme right in the US including interviews with several of the movement's leading figures from groups such as the Ku Klux Klan, Militias, American Renaissance and the White Aryan Resistance. The author also explains how the activities of these racist groups

have been curbed due to the campaigning efforts of anti-racist and anti-fascist watchdogs who have helped to shape and influence government policy.

*Current Trends and Perspectives* BRILL

This encyclopedia covers American right-wing extremist groups and extremism from the 1930s to the present day, including neo-Nazis, the Ku Klux Klan, and various anti-government organizations. • Chronological presentation of the specific groups and organizations provides historical insight into the development of right-wing extremism • Provides an up-to-date bibliography for further reading • Thorough cross-referencing of sources

**Cyber Racism** Univ of California Press

Since 1945 neo-Nazi and far right extremists on both sides of the Atlantic have developed rich cultures which regularly exchange ideas. Leading activists such as Colin Jordan and George Lincoln Rockwell have helped to establish what has become a complex web of marginalised extremism. This book examines the history of this milieu to the present day.

*The History of the White Nationalist Movement from the Margins to the Mainstream* Routledge

In this exploration of the way racism is translated from the print-only era to the cyber era the author takes the reader through a devastatingly informative tour of white supremacy online. The book examines how white supremacist organizations have

translated their printed publications onto the Internet. Included are examples of open as well as 'cloaked' sites which disguise white supremacy sources as legitimate civil rights websites. Interviews with a small sample of teenagers as they surf the web show how they encounter cloaked sites and attempt to make sense of them, mostly unsuccessfully. The result is a first-rate analysis of cyber racism within the global information age. The author debunks the common assumptions that the Internet is either an inherently democratizing technology or an effective 'recruiting' tool for white supremacists. The book concludes with a nuanced, challenging analysis that urges readers to rethink conventional ways of knowing about racial equality, civil rights, and the Internet.

*Invented Knowledge* Rowman & Littlefield Publishers

This comprehensive volume focuses on the world's religions and the changes they have undergone as they become more global and diverse in form. It explores the religions of the world not only in the regions with which they have been historically associated, but also looks at the new cultural and religious contexts in which they are developing. It considers the role of migration in the spread of religions by examining the issues raised for modern societies by the increasing interaction of different religions. The volume also addresses such central questions as the dynamics of religious innovation which is evidenced in the rise and impact of new religious and new spirituality movements in every continent.
