After coming to Vienna from Sudan to win a better life for himself, Hamza struggles to escape from the margins of society and the stigma of the immigrant. Following several years of hardship, his fortunes begin to change when he meets Sandra, a young Austrian woman, who shows him the Palm House. In this famous Viennese greenhouse, the frost of Hamza's heart begins to thaw, and he slowly opens himself to Sandra, revealing his bitter yet beautiful past in Sudan and beyond. This masterful novel draws on the 1001 Nights as well as Sudanese folk traditions, and demonstrates the remarkable power of storytelling to overcome even the most dire circumstances. Critically acclaimed across the Arab world, this novel can be read on its own, or as a sequel to Eitayeb's first novel, *Cities without Palms* (AUC Press, 2009).

Good Guys Klett

This highly accessible book provides an extensive and comprehensive overview of current research and theory about why and how we should protect future generations. It exposes how and why the interests of people today and those of future generations are often in conflict and what can be done. It rebuts critical concepts such as Parfitt's non-identity paradox and Beckerman's denial of any possibility of intergenerational justice. The core of the book is the lucid application of a veil of ignorance to derive principles of intergenerational justice which show that our duties to posterity are stronger than is often supposed. Tremmel's approach demands that each generation both consider and improve the well-being of future generations. To measure the well-being of future generations Tremmel employs the Human Development Index rather than the metrics of utilitarian subjective happiness. The book thus answers in detailed, concrete terms the two most important questions of every theory of intergenerational justice: what to sustain? and how much to sustain?

The key to advancing gender equality? Men. Women are at a disadvantage. At home, they often face an unequal division of household chores and childcare, and in the workplace, they deal with lower pay, lack of credit for their contributions, roadblocks to promotion, sexual harassment, and more. And while organizations are looking to address these issues, too many gender-inclusion initiatives focus on how women themselves should respond, reinforcing the perception that these are "women's issues" and that men—often the most influential stakeholders in an organization—don't need to be involved. Gender-in-the-workplace experts David G. Smith and W. Brad Johnson counter this perception. In this important book, they show that men have a crucial role to play in promoting gender equality at work. Research shows that when men are deliberately engaged in gender-inclusion programs, 96 percent of women in those organizations perceive real progress in gender equality, compared with only 30 percent of women in organizations without strong male engagement. Good Guys is the first practical, research-based guide for how to be a male ally to women in the workplace. Filled with firsthand accounts from both men and women, and tips for getting started, the book shows how men can partner with their female colleagues to advance women's leadership and equality by breaking ingrained gender stereotypes, overcoming unconscious biases, developing and supporting the talented women around them, and creating productive and respectful working relationships with women.
