In 1978 Julian Richer, then aged just nineteen, opened his first shop near London Bridge. For over twenty years this shop has been listed in the Guinness Book of Records as having the highest sales per square foot of any retail outlet in the world, and the company as a whole, with its fifty-three stores nationwide and huge online presence, has become Britain's favourite retailer of TV and hi-fi equipment. What lies behind this extraordinary success? For Julian, the answer is simple: throughout his career he has focussed relentlessly on putting people – both staff and customers – right at the centre of his business. And in *The Richer Way*, he offers a supremely practical guide to how others can

follow suit. He explains how to motivate employees and measure their progress. He establishes how to balance company discipline with individual autonomy. He explores what 'customer service' should really involve. Above all, he points the way to creating an open, friendly and flexible culture that will not only attract the best people but also offer the greatest chance of business success. Packed with straightforward, common-sense advice, *The Richer Way* will prove essential reading for all organisations, whatever their nature and size.

Picciola the Prisoner of Fenestrella Or Captivity Captive "O'Reilly Media, Inc."

On 18 October 1945, a day that would haunt him for ever, Airey Neave personally served the official indictments on the twenty-one top Nazis currently awaiting trial in Nuremberg - including Hermann Goering, Rudolf Hess, Julius Streicher and Albert Speer. With his visit to their gloomy prison cells, the tragedy of an entire generation reached its final act. Neave, a wartime organiser of MI9 and the first Englishman to escape from Colditz Castle, watched and listened over the months as the momentous events of the trials unfolded. He describes the cowardice, calumny and, in some cases, bravado of the defendants - men he would come to know and who in turn would become known as some of the most evil men in history. Was the trial victors' justice? Or was it civilisation's infinitely painful verdict on the worst crimes ever committed? These questions, and many others, are answered in this definitive eyewitness record of the Nuremberg trials.

Pigs is a hybrid novel, consisting of historical chapters and short stories. The first several chapters tell the story of a fictitious German family of tenuous nobility who escape from East Germany during the Soviet occupation, dodging Stasi agents and border guards, and eventually settle in Hood River, OR, where they build a Bed and Breakfast modeled after King Ludwig's Schloss Linderhof castle. The succeeding chapters are short stories about the lives of lodgers who stay at the Neue Schloss Linderhof. In many respects the compendium mirrors the tradition of "Winesburg, Ohio" by Sherwood Anderson or "Spoon River Anthology" by Edgar Lee Masters. The eponymous "Pigs"

are metaphorical constructs in the guise of mature, thoroughly insensitive, atavistic, uber-powerful, all-grown-up men. In other words, men.
